

Milestones Matter

Your Child's Communication: SECOND GRADE

By the end of second grade, your child should be able to do the following tasks in each area:

Listening

- Follow three to four directions in a row
- Understand words about place and time, like behind, next to, before and tomorrow
- Answer questions about a grade-level story

Speaking

- Speak clearly
- Answer harder yes/no questions
- Ask and answer who, what, when, where and why questions
- Use more complex sentences
- Explain words and ideas
- Give directions with three to four steps
- Use words to inform, persuade and entertain
- Stay on topic, take turns and keep eye contact during conversations
- Start and end conversations appropriately

Reading

- Know how letters make sounds in words
- Recognize many words by sight
- Reread and self-correct when necessary
- Explain important points of a story
- Predict what will happen in stories
- Read and retell a story in the correct order
- Smoothly read grade-level texts silently and out loud
- Read on her own for fun

Writing

- Write clearly
- Use different sentences to write essays, poetry or short stories
- Use basic punctuation and capitalization
- Organize writing with a beginning, middle and end
- Spell words that he uses a lot correctly
- Stop spelling by sound and start spelling correctly; for example, she may move from "grl" to "girl"

Here are some things you can do to help your child learn to listen, speak, read and write.

- Talk with your child a lot
- Read different types of books; read every day and talk with your child about the story
- Help your child learn sound patterns of words; you can play rhyming games and point out letters as you read
- Have your child retell stories and talk about his day
- Talk with your child about what you do during the day; give her directions to follow
- Talk about how things are the same and different
- Give your child opportunities to write

If you have any concerns about your child's development, you can talk with your pediatrician, seek a clinical speech-language evaluation or contact your child's school district. You can also sign up for a free online hearing and language screening with a speech-language pathologist from Boys Town National Research Hospital at <http://bit.ly/hearing-language-screening> or by calling (531) 355-5610. The screening will let you know if more hearing or language testing is needed for your child.

Clinical Evaluations

Boys Town Pediatrics offers speech-language evaluations and therapy for children with communication concerns. Call 531-355-5807 to schedule an appointment with a speech-language pathologist.

Boys Town National Research Hospital - Downtown Medical Campus
