# Your Patient's Surgical Stay at Boys Town Hospital

Whether your patient has a temporary or extended stay at Boys Town Hospital, they will find comfort in a private, family-friendly room with access to portable gaming stations and a dedicated child life specialist. Convenient parking is located directly in front of the surgery center.

## Our Surgery Team

Our surgical team includes physicians, registered nurses and support staff. We exceed the recommended staffing standards for the care of our patients.

Child-life specialists are on-site and available to help alleviate fears and anxieties a child may experience during hospitalization through medical play, education and coping strategies.

Many children require sedation for procedures. All children will be cared for by a board-certified physician anesthesiologist experienced in sedation and anesthesia for even the smallest of patients. Our anesthesiologists are known for their gentle care and will remain by your patient's side throughout any medical procedure using anesthesia

## Your Boys Town Pediatric General & Thoracic Surgery Team

Megan Fuller, M.D.; Stephen Raynor, M.D.; Robert Cusick, M.D.; Kathy Schall, M.D.; Shahab Abdessalam, M.D.

Surgeries are done at the Boys Town National Research Hospital, 14000 Boys Town Hospital Road on the Boys Town campus in West Omaha and Children's Hospital and Medical Center, 8200 Dodge Street in Omaha.

## How to Refer Your Patients

1. Refer quickly and easily by phone at: **531-355-7400 or 531-355-1234.**
2. Contact us at **531-355-1234** to arrange for medical transportation for patients.
3. If you have patients that may end up in the emergency room needing surgery, be sure you've let them know, by name, what surgeon you'd like them to specify or they will be assigned a surgeon by the emergency room where they are seen.
